

AKTIV CAT

The Aktiv series is a complete food manufactured in Denmark. Like the better-known premium types of pet food, the Aktiv series lives up to the high American standards placed on pet food.

The Aktiv series is made exclusively from fresh wholesome raw materials to ensure that the pet gets the most out of the food. It contains no animal or vegetable by-products and therefore no meat meal. The Aktiv series is made from 100 per cent fresh natural ingredients with no added colours or preservatives.

The Aktiv series has been developed in collaboration with vets and top breeders.

The below-mentioned items describe some of the benefits, which underline the high quality of Aktiv Cat:

- The blend of vitamins and minerals helps to prevent the formation of struvite crystals and to stabilize the cat's gastro-intestinal and urinary systems.
- A well-balanced content of Omega-3 and Omega-6 fatty acids gives a healthy and shiny coat
- Taurine ensures the development of the cat's retina, heart muscle and immune system.

Ingredients: Poultry, wheat, maize, fish, vegetables, egg, soya-bean oil, glucose, taurine, minerals and vitamins.

Energy: 372 kcal/1560 kJ

In developing Aktiv Cat the emphasis has been on ensuring that all ingredients contribute to the cat's well-being. The table shows how the individual ingredients contribute to give the cat a healthy and good life.

5 kg

15 kg

Content per 100 g.		Beneficial to:
Crude protein	30 %	Muscles, growth and maintenance
Crude fat	12 %	Energy, fur and skin
Crude fibre	3 %	Intestines and digestion
Ash	7 %	Muscles, teeth and bones
Calcium	1.2 g	Teeth and bones
Phosphorus	1 g	Teeth, bones and energy
Potassium	0.65 g	Muscles and fluid balance
Sodium	0.4 g	Muscles and fluid balance
Magnesium	0.1 g	Nerves, teeth, bones and energy
Vitamin A	1200 i.e.	Eyesight, growth and skin
Vitamin D3	120 i.e.	Bones, teeth og growth
Vitamin E	10 mg	Cell protection
Vitamin B1	0.8 mg	Fur, skin, bones, intestines, cells, nerves and reproduction
Vitamin B2	0.64 mg	
Vitamin B6	0.64 mg	
D-pantothenic acid	2 mg	Combustion of proteins and carbohydrates
Vitamin B12	0.004 mg	Liver
Folic acid	0.1 mg	DNA
Biotin	0.06 mg	Skin and fur
Niacin	4 mg	Nerves
Choline chloride	100 mg	Liver
Vitamin C	5 mg	Cell protection
Iron	15 mg	Skin, fur and muscles
Copper	1.7 mg	Teeth and bones
Zink	12.5 mg	Healing of sores
Iodine	0.13 mg	Energy
Selen	0.02 mg	Cell protection
Manganese	1.6 mg	The nerves
Cobalt	0.06 mg	Enzyme process
Taurine	100 mg	Eyesight and heart function
